

WHO WE ARE.

For 20 years, Rombald Inc. has specialized in providing integrated services in electrical engineering, mechanical engineering, telecommunications consulting and energy efficient designs for building systems. Based in the Waterloo Region, Rombald continues to execute high-quality M&E design work across Canada.

WE CARE.

Rombald takes pride in offering clients engineering excellence through creative design, attentive service and a dedication to client satisfaction at every stage of the project.

WE DELIVER.

Rombald aims to enhance the living and working experience of current and future generations of Canadians through innovation in building design.
